Summary

IT Support Engineer | NOC Engineer | System Administrator with 8+ years of experience across network operations, SD-WAN/cloud infrastructure monitoring, MSP-based system administration, and field IT support. CCNA and CompTIA A+ certified, with hands-on expertise managing carrier-grade networks (BGP, OSPF, MPLS) and SD-WAN platforms (Meraki, VeloCloud, Cradlepoint, Prisma). Skilled in Active Directory/Entra ID, Microsoft 365 administration, virtualization (VMware, Hyper-V), and incident management using ServiceNow, OTRS, and BigPanda AIOps. Experienced supporting multi-client MSP environments and multi-site field operations across the UAE, with a proven track record of reducing MTTR, maintaining high-availability systems, and delivering reliable technical support in fast-paced, 24/7 operational settings.

Experience

SENIOR IT SUPPORT ENGINEER | Technopeak | Abu Dhabi, UAE

January 2026 – July 2026

- Delivered advanced troubleshooting for Windows, hardware, software, and network issues across multiple client environments, resolving escalated tickets within SLA timelines.
- Administered Active Directory, DNS/DHCP, Group Policy, and user account lifecycle management for hybrid AD/Entra ID environments, and managed Microsoft 365 administration and support (Exchange, Teams, OneDrive, SharePoint) for multi-client accounts.
- Supported enterprise infrastructure including servers, NAS, VPNs, firewalls, and switches, and administered VMware and Hyper-V virtualization platforms.
- Managed client tickets and service requests via OTRS, maintaining clear documentation and timely resolution across multiple accounts, and performed backup and disaster recovery operations using Acronis to safeguard data integrity.
- Conducted root cause analysis and escalation handling for complex IT incidents, supporting hybrid/cloud environments and office infrastructure deployments.

NETWORK OPERATIONS CENTER ENGINEER | Zayo Group | Manila, PH

April 2024 – December 2025

- Monitored and administered SD-WAN infrastructure across Meraki, VeloCloud, and Cradlepoint platforms, ensuring high availability and optimal performance for remote branch sites.
- Managed cloud-based network monitoring and orchestration using Cisco Meraki, Palo Alto Prisma, and VMware environments, identifying and resolving connectivity issues in real time.
- Deployed, configured, and troubleshooted Cradlepoint and Digi cellular routers/gateways for branch and failover connectivity, and utilized OvrC and ElementIQ for remote device management and proactive health monitoring across distributed endpoints.
- Managed incident tickets via ServiceNow and leveraged BigPanda AIOps for automated alert correlation and noise reduction, improving alert response times.
- Configured and maintained SD-WAN tunnel policies and QoS settings to optimize traffic routing, and performed firmware upgrades and remote provisioning of edge devices, reducing on-site truck rolls for routine maintenance.

NETWORK OPERATIONS CENTER ENGINEER | Huawei Technologies Philippines | Manila, Philippines

October 2021 – April 2024

- Monitored and maintained carrier-grade network infrastructure (BGP, OSPF, MPLS, IPRAN) using Huawei iMaster NCE, sustaining 99.9% network uptime across 50+ sites/nodes.
- Performed network topology changes and software upgrades across multi-vendor environments, completing 100+ change requests with zero unplanned downtime, and authored 30+ Method of Procedure (MOP) documents for planned maintenance and change management.
- Diagnosed and resolved Layer 1/Layer 2 hardware and connectivity faults, reducing MTTR to under 30 minutes.
- Collaborated with cross-functional engineering teams to resolve 20+ network incidents monthly in a high-availability, 24/7 NOC environment.
- Conducted proactive network health checks and capacity monitoring, and participated in major incident bridge calls, delivering real-time status updates and post-incident root cause analysis reports.

SKILLS

Networking & NOC Infrastructure: BGP, OSPF, MPLS, IPRAN, SD-WAN (Meraki, VeloCloud, Cradlepoint, Digi), Palo Alto Prisma, Huawei iMaster NCE, Backup & Disaster Recovery (Acronis), Network Monitoring & Maintenance, Change Management (MOP Documentation)

Ticketing, ITSM & Monitoring: ServiceNow, Jira, OTRS, BigPanda AIOps, OvrC, ElementIQ, SLA Management, Ticket Board & Queue Management, Incident Ownership, Root Cause Analysis

Active Directory & Windows Infrastructure: Active Directory, Entra ID, Group Policy (GPO), Windows Server, DNS, DHCP, TCP/IP, VLANs, VPN, Firewalls

Virtualization & Endpoint Management: VMware, Hyper-V, PowerShell, Microsoft Intune, Endpoint Configuration Manager, Remote Desktop, Desktop & Laptop Support

Microsoft 365: Exchange Online, Teams, SharePoint, Intune, Azure AD, OneDrive, MS 365 Admin Centre

Field & On-Site Support: Structured Cabling, End-user device support, Network Device Installation (Switches, APs, Routers), Site Surveys, Hardware Deployment, Multi-Site/Multi-Client Support (UAE-wide)

Certifications

CCNA Routing and Switching (Cisco Certified Network Associate)	2019
CompTIA A+	2026
Microsoft 365 Fundamentals (MS-900)	2026
AZ-104: Microsoft Certified Azure Administrator Associate	in Progress

Education

STI College	2013 – 2017
Bachelor of Science in Information Technology	

Additional Information

Visa Status: UAE Golden Visa

Availability: Immediate

Location: Abu Dhabi, UAE

Languages: English, Filipino
